RAPID FIXING SOLUTIONS FOR FLAT ROOF INSULATION BOARDS

TK 395 is a rapid setting, 1 part, foam adhesive for fixing insulation boards without the need to mechanically fix, and with no penetrations through the vapour control layer.

Aerosol gun applied for a safe, clean and no waste application. It is solvent free, remains flexible when cured and is useable from -10 to +45 oC

Ideal for overlaying old roofs without stripping off. Fast and clean application
One tin will cover approximately 16m²

For all tissue faced PIR type insulation, ridged polystyrene and mineral fibre insulation used for three layer, asphalt, and single ply roofing. Use on concrete, wood, brickwork and metal profile sheets. Also good over aged asphalt, sound 3 layer built up roofs, and sound green mineral cap sheets.

**BRANCHES AT:
TWICKENHAM, BASINGSTOKE, THATCHAM, SWINDON
AND HAWKHURST**
